6. PREVIEW	

7 Set Location

Select the location where the emergency is taking place (example: New York, Chicago). This location will be displayed with the alert.

Enter the specific location and select the location from a drop-down list with search results.

8 Select Output

Choose the output channels on which you want the alert message to be displayed.

To select all channels at once, just click the icons on top or the channel names on the left.

9 Set Duration

Choose the duration of the alert (example: 10 minutes, 6 hours or unlimited).
