INTRODUCTION

About this guide

This guide helps you to pick the templates you would like to use with your Netpresenter Message Server, Alert Server or App.

If you want a custom design, please contact sales for more information.

How to use the template guide

Browse the template guide to make a selection of the templates you would like to use. Write down the corresponding letters and numbers of each template.

See the example below. In this case you would write down the letters Ms (**A**) and number 2 (**B**).

Symbols

Templates with advanced features are marked with a symbol:

Templates that can be customized using color themes and custom fonts

Templates that are also available in portrait mode

Templates that support audio

Example

Ms **A**

Message
Templates

2

B

A personal
message from
our CEO

A personal message from our CEO

Our CEO has shared his thoughts with us during these challenging times. He also looks ahead to the next quarter. Head to SharePoint to watch the video and, read his personal message!

Office Templates

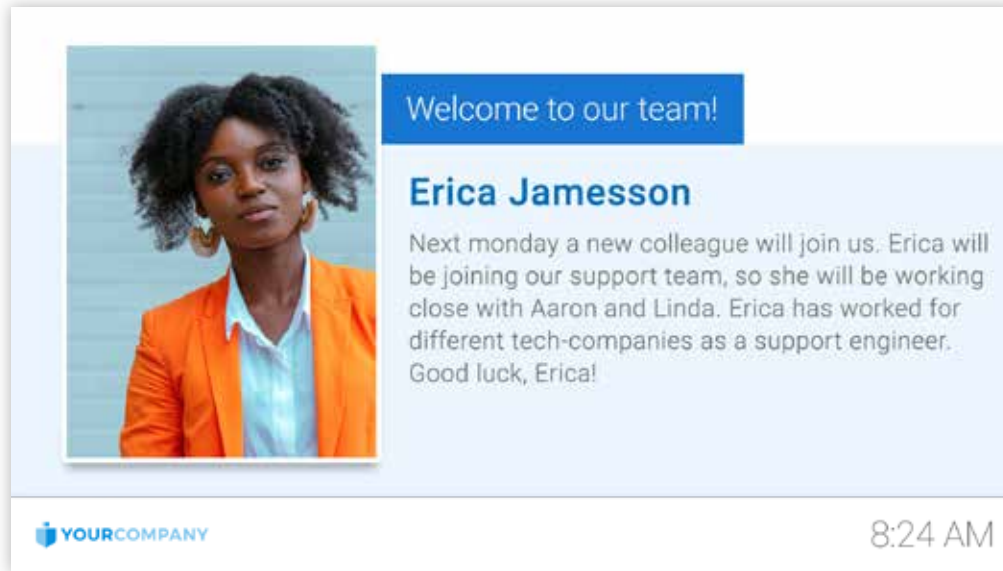

Download our Office Template Pack for free at: <https://www.netpresenter.com/support/office-template-pack>

(This download is password protected)

Usage

Office Templates are a perfect way to support your office related communication such as birthdays, new employees, etc.

1

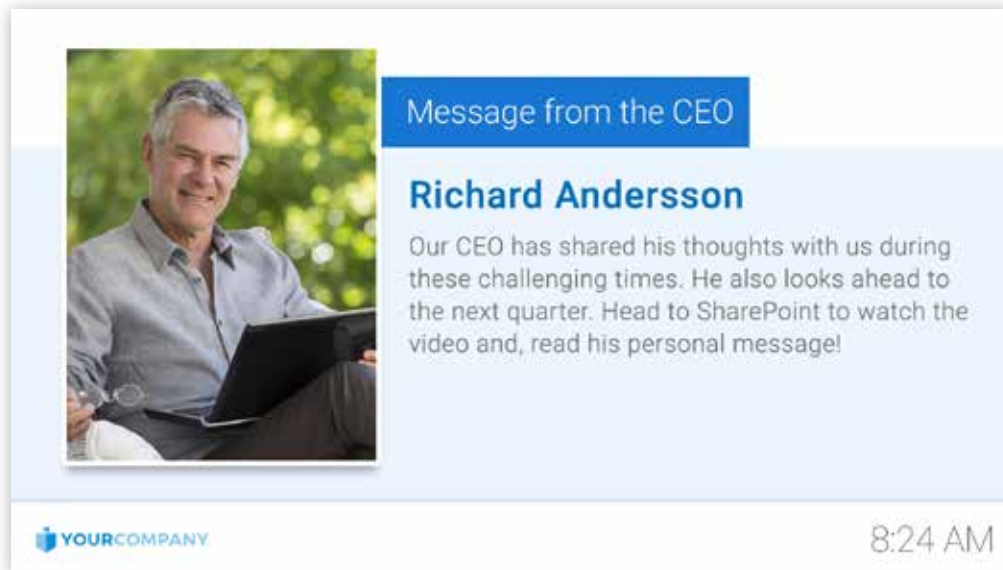

This is a screenshot of a 'New Employee' welcome message template. It features a placeholder image of a woman with dark curly hair wearing an orange blazer. To the right of the image is a blue header bar with the text 'Welcome to our team!'. Below this, the name 'Erica Jamesson' is displayed in bold. A paragraph of text follows: 'Next monday a new colleague will join us. Erica will be joining our support team, so she will be working close with Aaron and Linda. Erica has worked for different tech-companies as a support engineer. Good luck, Erica!'. At the bottom left is a logo for 'YOURCOMPANY' and at the bottom right is the time '8:24 AM'. To the right of the template are two circular icons: one with 'Aa' for text formatting and another with a document icon.

New Employee

Welcome message for new employees to your team

1b

This is a screenshot of a 'Message from the CEO' template. It features a placeholder image of a man with grey hair wearing a light blue shirt, sitting outdoors and holding a laptop. To the right of the image is a blue header bar with the text 'Message from the CEO'. Below this, the name 'Richard Andersson' is displayed in bold. A paragraph of text follows: 'Our CEO has shared his thoughts with us during these challenging times. He also looks ahead to the next quarter. Head to SharePoint to watch the video and, read his personal message!'. At the bottom left is a logo for 'YOURCOMPANY' and at the bottom right is the time '8:24 AM'.

Message from the CEO

Inform your employees with a personal message from the CEO

 8:24 AM

New Leads

Real-time data showing the newest leads with contact information

4

Safety Information

Displays real-time incident data from Excel sheet

Power BI Templates

i Requires Media Server

powered by
Power BI

Usage

Display dashboards from Microsoft Power BI directly on all your screens. Please contact us for all possibilities and custom dashboards.

1

Microsoft Power BI dashboard

Can display your dashboards from Microsoft Power BI

2

Microsoft Power BI dashboard

Can display your dashboards from Microsoft Power BI

Ne

News Templates

 Requires Media Server

Usage

Automatically integrate newsfeeds via external sources like RSS, XML and API. Please note that some of our default feeds may not be available for your location.

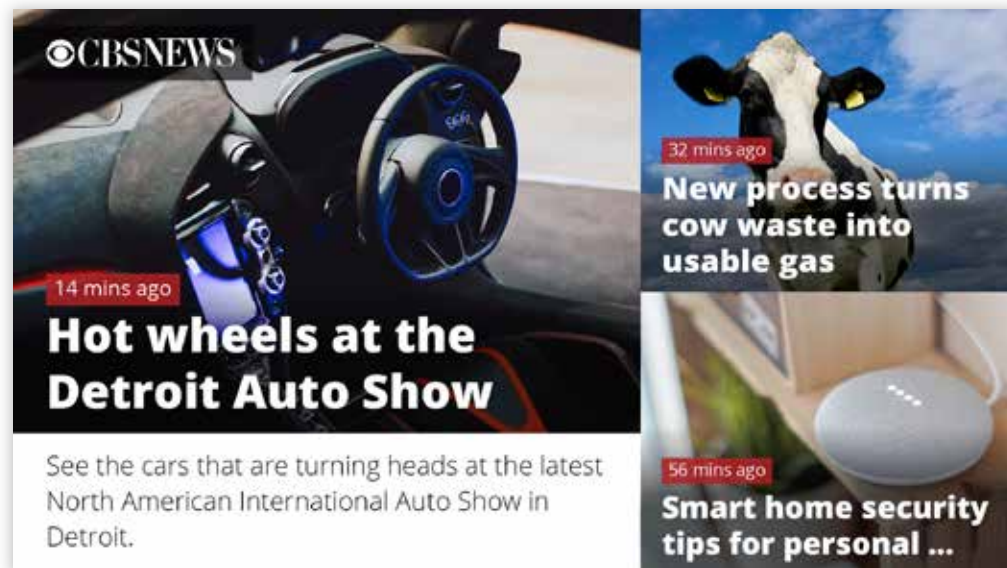

HOW IT WORKS

Integrate newsfeeds automatically via external sources like RSS and XML to show relevant industry news, weather forecasts, breaking international headlines, the latest sports results, or local news. Any of our News Templates are suitable for integrating external sources, depending on the specific source you would like to display. For example, your RSS feed must contain images, a title, and a (short) body text.

A few examples of our favorite news feeds:

1

News template

Displays 3 news messages with large images

Ne

News Templates

 Requires Media Server

Usage

Automatically integrate newsfeeds via external sources like RSS, XML and API. Please note that some of our default feeds may not be available for your location.

2

News template

Displays 3 news messages with large images

3

News template

Displays 3 news messages with large images

Ne

News Templates

 Requires Media Server

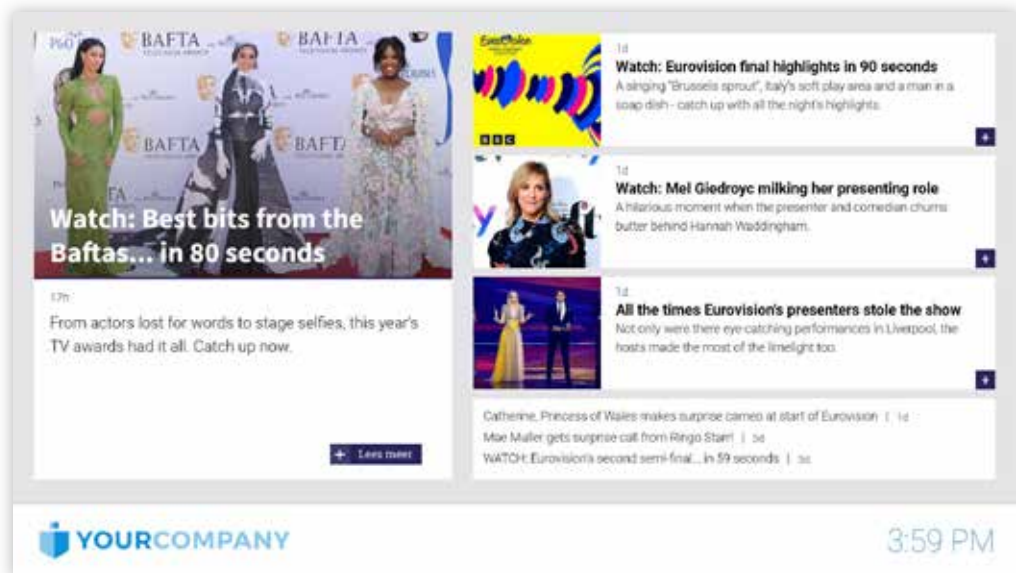

4

News template

Displays 3 news messages with large images

5

News template

Displays 4 news items with images and 3 headlines

Usage

Automatically integrate newsfeeds via external sources like RSS, XML and API. Please note that some of our default feeds may not be available for your location.

Ne

News Templates

Google Calendar

Displays selected calendar information (e.g. birthdays) using the Google Calendar API

2

World Clocks

Displays different timezones over the world

Usage

Automatically integrate (real-time) date and time information via RSS, XML and API. Please note that some of our default feeds may not be available for your location.

Dt

Date and time Templates

 Requires Media Server

Usage

Automatically integrate (real-time) date and time information via RSS, XML and API. Please note that some of our default feeds may not be available for your location.

3

Countdown

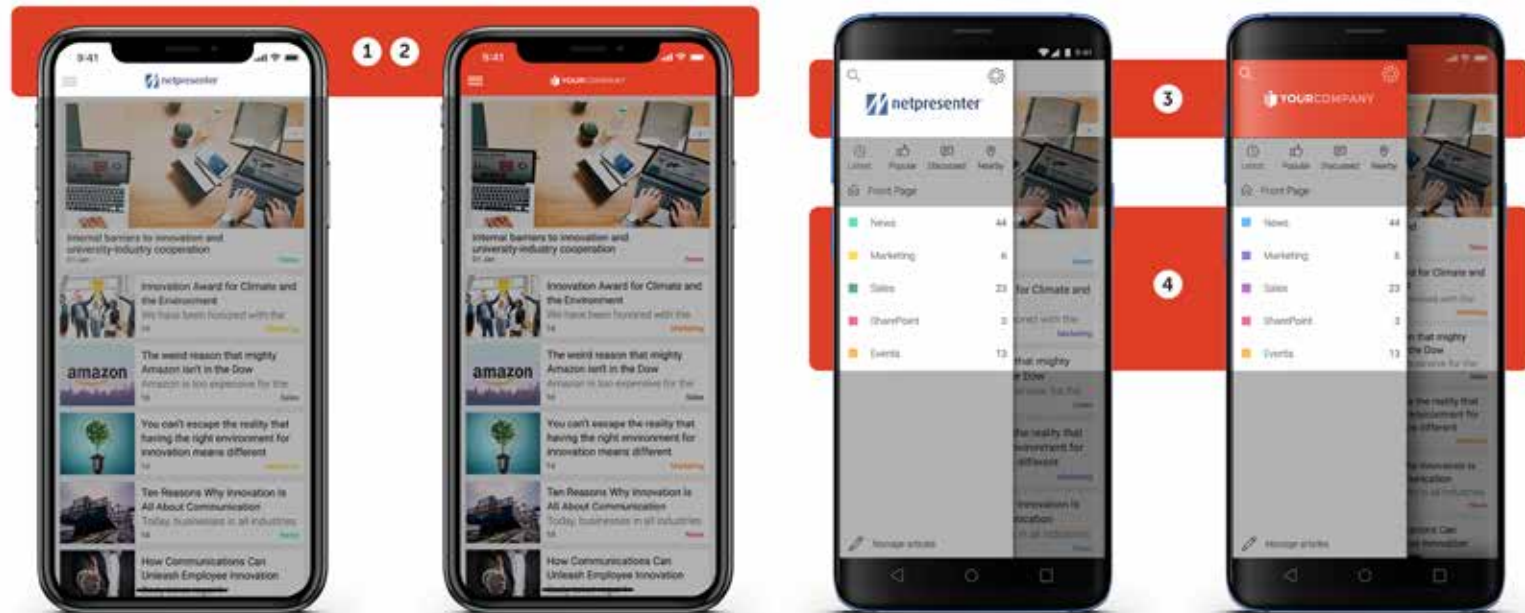

Counts down to a specific date or event, contains background image, title and logo

Ap

App Templates

Mobile App

Netpresenter's Corporate Mobile App for Employee and Critical Communications combines solid corporate communication with a professional alert notification service. Automatically bring your internal news, alerts, push notifications, newsfeeds and SharePoint headlines to your employees' devices, wherever they are!

Change 1 Logo / 2 Header color

Change 3 Menu header image / 4 Category colors

Usage

An app template changes the look of your Netpresenter app based on your corporate style guide. The app templates shown are just examples.

As

Alert Server

Making sure urgent messages are seen immediately

Alerts can be displayed on a wide range of devices, from mobile phones to digital signage screens.

Alert Types and scenarios give you the ability to quickly trigger alerts including certain predefined conditions, such as a color, icon and level.

Example of a high level alert

Find out more about the possibilities and features in our Alert Server Guide.

Alert types

Based on ANSI Safety Color Codes

COLOR	ICON	TYPE	LEVEL
Red	⚠️	EMERGENCY	HIGH
Orange	⚠️	WARNING	HIGH
Yellow	ⓘ	CAUTION	MID
Green	🛡️	SAFE	MID
Blue	ⓘ	NOTICE	LOW
Grey	🔑	TEST	LOW

Example scenarios

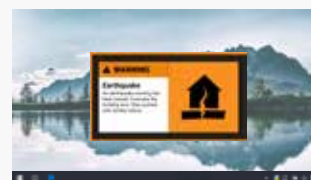

These are some of the included scenarios in the Alert Server

Alert Level Examples

High Level
Fullscreen

Mid Level
50% Screen size

Low Level
25% Screen size

Usage

Designed to instantly grab any audience's attention using pop-up messages and highly effective alert sounds. Share breaking news – e.g. emergency situations or important employee updates immediately whenever, wherever.

Theme

Cybersecurity Template pack

Usage

Our free cybersecurity awareness pack contains full screen templates (PC and TV) and ready-to-use content covering topics such as phishing, ransomware, password policy and much more.

Cybersecurity Templates

Cyber-attacks are becoming more common and more sophisticated every day. In fact, excellent IT security is no longer enough to prevent business-sensitive information from falling into the wrong hands. After all, the biggest threat is within your own organisation: your employees. One click on the wrong link is often enough to shut down your entire organisation. Continuous cybersecurity awareness training, however, ensures that you and your employees are aware of cyber attacks at an early stage and can thus better protect your organisation against them.

Theme

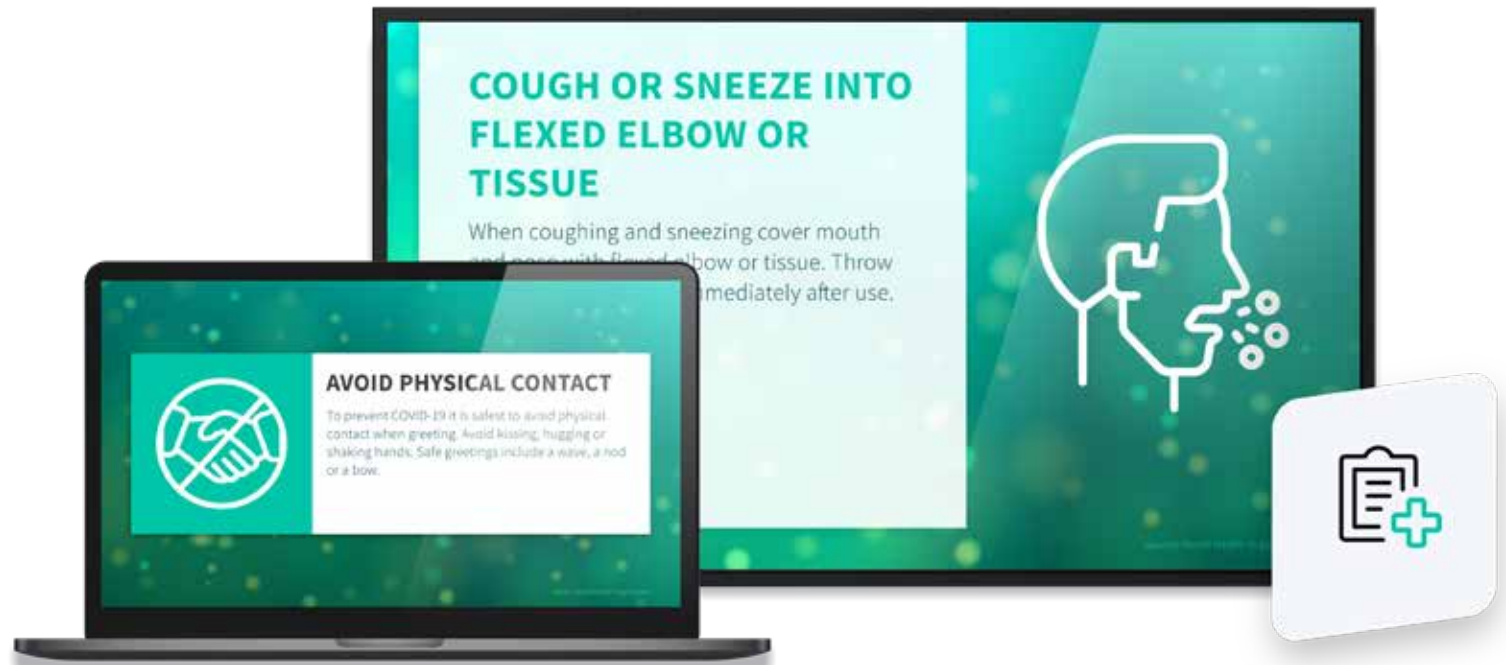

Health Regulations Template pack

Usage

Our free Health Regulations Template Pack contains full screen templates (PC and TV) and ready-to-use content covering topics such as hand washing, sanitizing and avoiding physical contact.

Health Regulations Templates

As an employer, you want to keep your employees healthy. Healthy employees enjoy their work more, are more productive and reduce absenteeism. Continuously bringing essential health regulations under your colleagues' attention will not only help them to remember this possibly life-saving information better, it will also encourage them to act accordingly.

Theme

Emergency response Template Pack

Usage

Our free CERT Template Pack contains full screen templates (PC and TV) and ready-to-use content covering topics such as how to perform compression, using an AED and how to treat burns.

CERT-templates

To be well prepared for any emergency in your organization, it is important to regularly repeat and practice your CERT-skills. Typically, this is done during an annual CERT-repetition. In between these annual trainings, the CERT-knowledge may slightly fade. This means your organization is not always fully prepared when an emergency occurs, which can be dangerous...

To keep your CERT-members and other staff members' knowledge on track, regular repetition is crucial. That is why we have developed a CERT-template pack. The template pack will fully equip you to repeat the most important CERT-knowledge for your staff members on a regular basis. This way, they will always have the latest knowledge, even in between the annual CERT training.

Theme

Workplace Wellness Template Pack

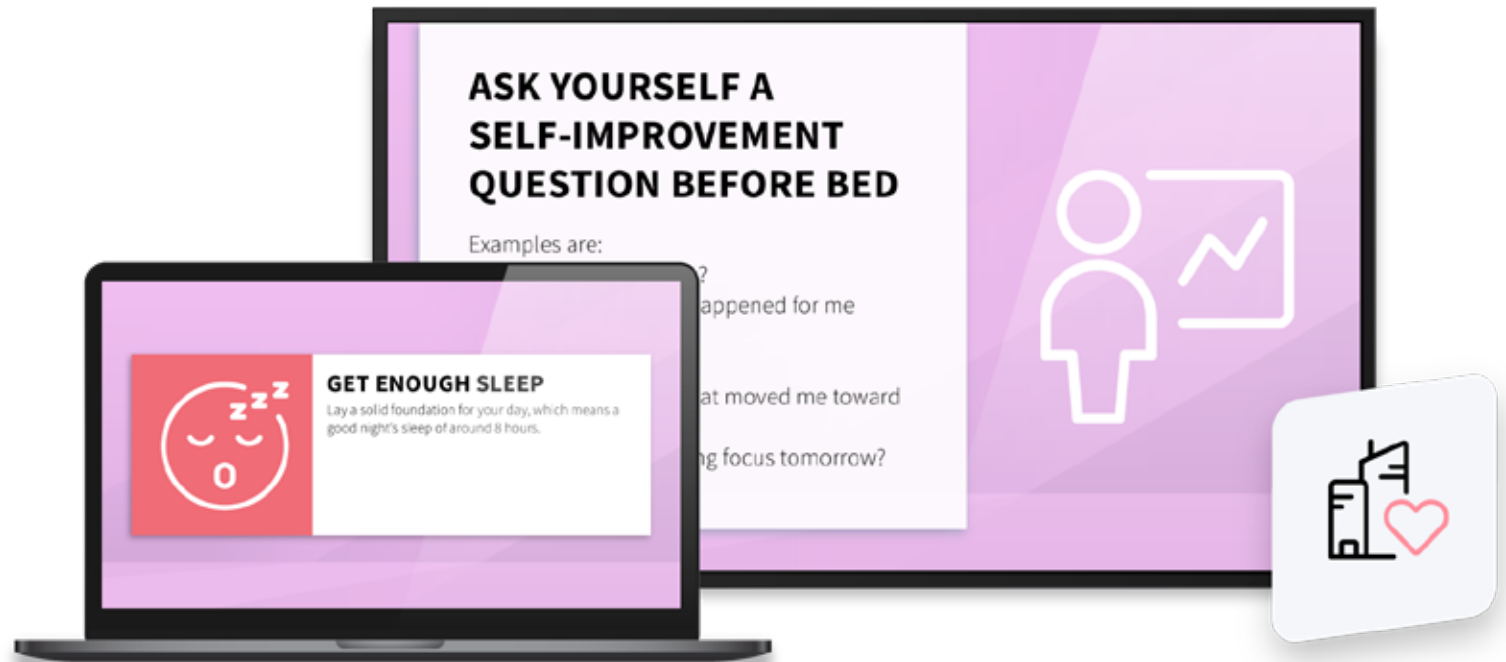

Usage

Our free Workplace Wellness Template Pack contains full screen templates (PC and TV) and ready-to-use content covering topics such as choosing a positive attitude, creating a productive working environment and staying healthy.

Workplace Wellness-templates

Workplace wellness is any workplace health promotion activity or organizational policy designed to support healthy behavior in the workplace and to improve health outcomes. Workplace wellness often consists of activities such as health education, weight management programs, on-site fitness programs or facilities.

To remind your employees about workplace wellness, repetition is crucial. That is why we have developed a Workplace Wellness Template pack.

Theme

Holiday Template Pack

Dynamic Holiday-templates

Are you looking for a convenient way to wish everyone at your organization a happy holiday? We've got you covered with our very own 'Happy Holiday' template package, containing templates for Christmas and New Year's. You can use them on your Digital Signage screens and Corporate Screensaver!

When you're done installing the holiday templates in the Message Server, you can write your own message and publish them to all your employees with one push of a button. Saves you some extra work before your holidays!

Any questions?
