

Release Notes 2025

Message Server 19.0 • Player 16.0

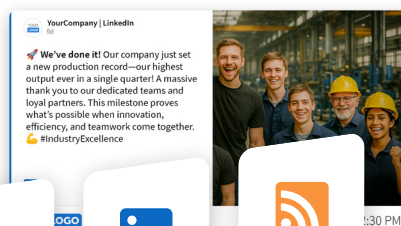

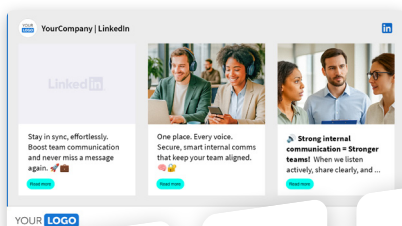

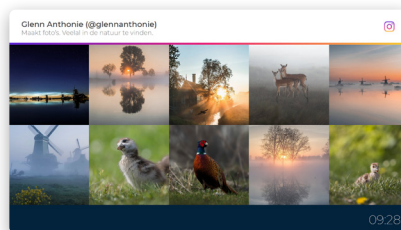

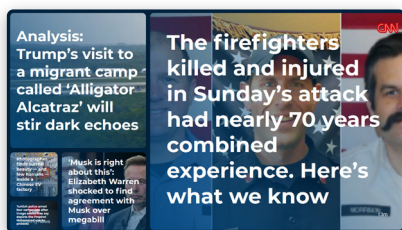

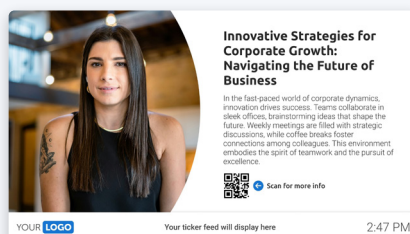

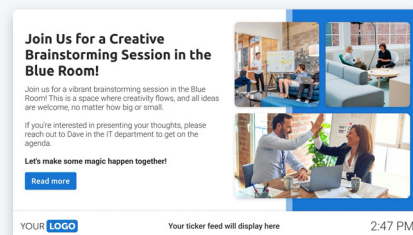

Update now!

Update to the latest version to get all new improvements

Redesigned Templates

We've redesigned some of our most popular templates in the Message Server to give them a fresh, modern look. The updated collection includes four templates: Tiled Message Gallery, Mosaic Gallery, Billboard, and Message with Curved Media. Each template offers a new and engaging way to present your content and is designed for use on both digital signage and screensavers. You can fully customize the templates with your corporate identity, including your logo and color theme, to ensure a professional appearance.

Dynamic Social Templates

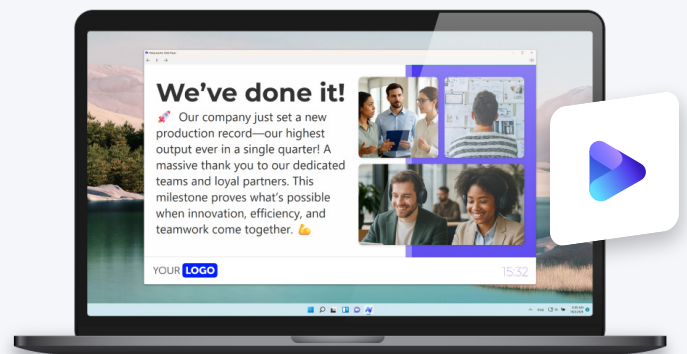

We're introducing new Social Templates that automatically display real-time content from platforms like LinkedIn, Facebook, X, Instagram, or other news feeds, such as CNN or BBC, directly on your screens. These dynamic templates keep your presentations up to date without manual input and offer multiple layout options to show either a single post in detail or several posts at once.

Other improvements

New Netpresenter Player

The new version of the Netpresenter Player (v16.0) introduces visual and technical enhancements. It now features a zoom effect for images and smooth fade transitions for a more dynamic viewing experience. Technically, improved caching, extended cache durations, and better bandwidth efficiency reduce data traffic by limiting content reloads, resulting in faster performance, reliable delivery, and lower costs.

- **Optimized Data Traffic**

Enhanced server-player communication and extended cache to reduce data usage.

- **Fade Transition**

Smooth fade effect between slides for a more visually appealing presentation.

- **Zoom effect***

Subtle zoom effect on images adds motion for a more dynamic slide experience.

** Only available for the 4 redesigned templates*

- **Fontset Caching**

Improved caching of fontset files for better performance.

- **Bug fixes**

We have added some bug fixes and security patches to this version.
