

QR code Template Pack

Automatically shows a QR code when a hyperlink is added. For TV only.

QR code is displayed instead of the read more button.

Requires Message Server 17.5 and Player 14.6

QR1

Hero Title

Large title with message and media

Supports:

The QR1 template features a blue background on the left with the text "Time to eat!" in white. On the right, there is a photo of various restaurant dishes. Below the photo, a text block reads: "Our wonderful colleagues in our restaurant's kitchen have outdone themselves yet again to create a mouth-watering menu for us this week. Check the picture for a small preview, or scan the QR code to see the full menu!". At the bottom left is the "YOURCOMPANY" logo, at the bottom right is a "Scan to read more" button, the time "2:08 PM", and a QR code.

QR2

Media Gallery Left

Message with media gallery on the left

Supports:

The QR2 template features a media gallery on the left with three photos of people participating in a team-building event. The main text area on the right reads: "Our yearly event was a great success! How great was our yearly team-building event? We had an awesome turn-up, with ninety-seven percent of you attending! Thank you for making the event an even bigger success than we could have ever imagined! Our IC team shot some great pictures of you all having the best time. Check them out by scanning the QR code (you really want to see them, trust us).". At the bottom left is the "YOURCOMPANY" logo, at the bottom right is a "Scan to read more" button, the time "2:27 PM", and a QR code.

QR3

Media gallery

Create your own design and upload as a fullscreen image, or add up to five media in a gallery layout (no title)

Supports:

The QR3 template features a blue background on the left with the text "New internal emergency number" and a large "4321" with a phone icon. Below this, it says: "For more information on in-company emergency response, scan the QR code.". On the right is a photo of a woman in a call center. At the bottom left is the "YOURCOMPANY" logo, at the bottom right is a "Scan to read more" button, the time "2:50 PM", and a QR code.

QR code Template Pack

Automatically shows a QR code when a hyperlink is added. For TV only.

QR code is displayed instead of the read more button.

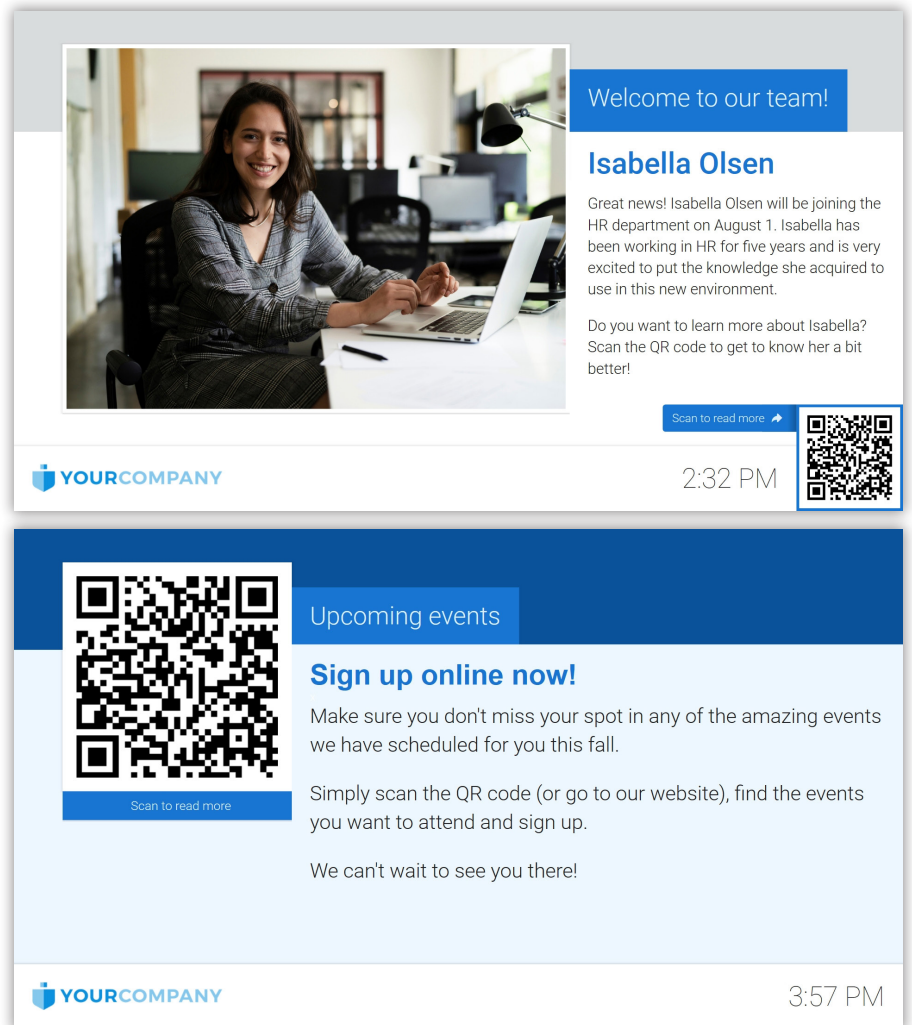

Requires Message Server 17.5 and Player 14.6

QR4

Announcement

Message with media object, when no media is added the QR code is displayed instead

Supports:  

How to use the QR templates

1. Download the QR code Template Pack on our website: <https://www.netpresenter.com/support/qr-template-pack>
2. Import the QR code templates to your Message Server. Watch our tutorial on importing templates [here](#).
3. To create a message with the QR code templates, start by selecting one of the QR code templates.

4. Add an URL in the hyperlink field under advanced options. The QR code will pop-up automatically in the template.

5. Click preview TV to view the QR code. This feature is TV only, on PC screens the read more button will be displayed instead.
